Question: Most effective aspects
The quizzes were very beneficial.
Everything class is great.
Dr. Bhattacharyya took the time to comb through our rough draft research papers and offered multiple ideas for improvement. That must have taken some time, thanks! Very knowledgeable on the subject and it's interesting listening to a South Asian instructor teach us about South Asia, plenty of information here.
Question: To improve
Don't print out so many readings for us. Using Blackboard is more beneficial, and encourage use of the book rather than wasting so much paper.
Nothing great teacher
Question: Technology
Blackboard practice quizzes enhanced my ability to understand the subject.
Learning about southeast Asia has been eye opening I hope to visit there someday and see their amazing culture.
