

# University of Central Arkansas

Spring 2014, GEOG 6328 SPATIAL ANALYSIS & MODELING Section 25170  
 Instructor: Bhattacharyya, Kumkum (Primary)

Text Responses
<b>Question: Most effective aspects</b>
Great notes
The tutorials from the text.
The textbook and the individual assistance given by the professor.
The labs, although time consuming, really brought the concepts in the reading together
The Esri online training was helpful. The organization of information in weekly folders.
<b>Question: To improve</b>
No recommendations.
none
Video lectures to go along with the power point presentations
More discussion opportunities would be helpful. More examples for performing specific spatial analysis tools. More openness from the teacher about questions.
<b>Question: Technology</b>
GIS TUTORIAL 2 text combined well with the ArcGIS 10.1 software and has given be greater knowledge in the spatial analysis functionality of the software.
none
